

Time of the day	Activity				
	Topic	Mins	Content	Notes	Resources (cheat sheets, type along)
9:00 AM	Setup and installation before the class	0	shell-novice/#download-files	- Install shell - Download lesson material	
09:00	Coffee, tea	15			
09:15	Installation check, housekeeping	15	☒ Roll call ☒ Code of Conduct ☒ Did everyone install UNIX Shell? ☒ Getting help	- Explain red and green stickers	eg. SWC OCT 2025
09:30	A short icebreaker	5	Pick one of the options in the resource document		resources
09:35	- Intro to UNIX shell - Enter a UNIX shell environment (eg. via login or starting git-bash)	10	shell-novice/01-intro	- what is shell? - why do we need a shell? - demo how to open a shell [everyone opens shell] - explain \$ and nelle@localhost	slides
09:45	File systems	10	Brief explanation of file systems using browser.	- Demo the actions that will be covered in directory navigation using the file browser. This visual should make it easier when moving to the shell. - Explain concept of `home` - Explain meaning of slash at the end `/`	
09:55	-Identify their current working directory -Make a symbolic link for Desktop	10	shell-novice/02-filedir	Users with Windows 10 will probably save the data in `OneDrive` Desktop. This path is very complicated, with spaces and such. So our first task will be to make a symbolic link to make our lives easier. pwd ln -s "[path_to_OneDrive]\Desktop" "Desktop"	
10:05	-Change their current directory, with absolute or relative paths (cd) -List files and subdirectories within the current directory (ls)	20	shell-novice/02-filedir	ls, ls -F, ls --help, man ls, clear,, cd, ,, ...	
10:25	Have students solve a challenge	10	shell-novice/02-filedir	challenges: - Absolute vs Relative Paths - Relative Path Resolution	
10:35	Break	10			
10:45	Create and modify files	25	shell-novice/03-create	- commands: nano, cat, cp, mv, rm, mkdir, rmdir, touch - Note: talk about `good names for files and directories` - Explain: create files with `touch`	
11:10	Have students solve a challenge	10	shell-novice/03-create	challenges: - Moving Files to a new folder - Moving and Copying	
11:20	Using wildcards to access multiple files at a time	10	shell-novice/03-create#operations-with-multiple-files-and-directories	*, ?	
11:30	Have students solve a challenge	15	shell-novice/03-create#operations-with-multiple-files-and-directories	challenges - List filenames matching a pattern - Reproduce a folder structure	
11:45	Summarize key points	10	shell-novice/key-points	- Introducing the Shell - Navigating Files and Directories - Working With Files and Directories	
11:55	Give feedback about the course	5			
12:00	Good bye
